Design & Delivery: Figma, Adobe XD, Photoshop, Illustrator, Jira, team mentoring, client communication, technical troubleshooting

PROFESSIONAL EXPERIENCE

Senior CMS Developer / DevOps Specialist | Chameleon Ideas Inc. | Karachi, Pakistan | Mar 2026 - Present

- Serve in the Web Development department as a senior CMS and DevOps specialist supporting production websites, deployments, hosting, and client delivery requirements.
- Develop, maintain, and optimize CMS-based websites using WordPress, WooCommerce, custom PHP, templates, plugins, frontend components, and scalable content structures.
- Handle server-side and DevOps tasks including hosting setup, DNS/domain management, SSL configuration, backups, migrations, deployment support, and production troubleshooting.
- Support critical project milestones through senior-level technical ownership, issue resolution, performance improvements, and coordination with development stakeholders.

Senior Software Developer / Team Lead - CMS & Web Development | Websity Digital | Karachi, Pakistan | Mar 2024 - Mar 2026

- Led technical execution for agency projects including WordPress, WooCommerce, Webflow, Shopify, and custom CMS websites.
- Architected SEO-optimized WordPress websites using custom themes, ACF/CPT structures, reusable templates, optimized frontend assets, and scalable content models.
- Developed and maintained WooCommerce platforms with product, checkout, catalog, and workflow customizations aligned to business requirements.
- Managed AWS Lightsail and hosting environments, including deployments, SSL certificates, DNS/domain configuration, backups, uptime checks, and security support.
- Reviewed developer work, troubleshooted production issues, supported CI/CD deployment processes, and improved release quality for client platforms.

Senior CMS & Web Developer | Krystosoft | Karachi, Pakistan | Oct 2022 - Mar 2024

- Built and maintained CMS websites for international clients using WordPress, Shopify, Webflow, and custom PHP/JavaScript enhancements.
- Developed structured CMS architecture using Custom Post Types, taxonomies, ACF fields, dynamic templates, and admin-friendly workflows.
- Customized themes, page builders, plugin behavior, and frontend components to meet brand, SEO, performance, and content-management requirements.
- Implemented website migrations, hosting setup, DNS support, SSL setup, backups, and production troubleshooting across multiple client websites.
- Mentored junior developers, reviewed implementation quality, and supported delivery planning for concurrent web projects.

Full-Stack & CMS Developer | Novatex Limited / Nextac Ltd / Logicose | Karachi / Hybrid / Remote | Apr 2022 - Dec 2022

- Delivered project-based full-stack and CMS development assignments covering WordPress, PHP, MySQL, frontend engineering, and custom web workflows.
- Built custom WordPress themes and plugin-level enhancements with optimized HTML, CSS, JavaScript, PHP, and WooCommerce features.
- Designed and implemented responsive layouts from Figma/Adobe XD references, ensuring UI consistency, performance, and cross-browser compatibility.
- Configured cloud and hosting environments, optimized database structures, and supported secure production deployment.

Software Developer | Mystic Advertising | Karachi, Pakistan | May 2021 - Mar 2022

- Managed websites across WordPress and Shopify, including theme customization, Elementor builds, e-commerce setup, and ongoing maintenance.

- Configured online stores, product catalogs, inventory structures, payment gateways, landing pages, and service websites for agency clients.
- Improved responsiveness, browser compatibility, site speed, UI quality, and Google Analytics tracking across client projects.

Frontend Web Developer | Nisshinbo Holdings Inc. | Remote / Pakistan | Dec 2020 - Apr 2021

- Developed and maintained ASP.NET MVC and frontend website components while supporting parallel remote web projects.
- Implemented responsive UI fixes, cross-browser compatibility improvements, and performance optimization for production web interfaces.

Software Quality Assurance Intern | Afiniti | Karachi, Pakistan | Aug 2020 - Sep 2020

- Performed manual and automated QA testing, bug reporting, regression checks, and issue tracking using Jira.
- Worked with developers to reproduce defects, validate fixes, and support software quality standards.

Graphic Designer & IT Manager | ARTT Business School | Karachi, Pakistan | Feb 2013 - Apr 2021

- Managed institutional IT support, website updates, hosting coordination, digital assets, and design requirements alongside academic operations.
- Created responsive pages and CMS content updates using HTML, CSS, JavaScript, WordPress, and design tools.
- Handled visual design, UI/UX improvements, server/hosting coordination, and website maintenance for internal digital platforms.
